- ## Opinions of the Independent Investigation Committee and the Board on the Supplementary Report of the Independent Investigation

Figure 10 shows the results of the analysis of variance for the effect of the different factors on the response variables. The analysis of variance for the effect of the different factors on the response variables is presented in Table 10. The analysis of variance for the effect of the different factors on the response variables is presented in Table 10. The analysis of variance for the effect of the different factors on the response variables is presented in Table 10.

| Key Internal Control Issues | Rectifications |
|--|--|
| Entity-Level Review by COSO Framework | |
| <p>Control Environment – Conflict of Interest Reporting Mechanism</p> <p>As part of the internal control review, the audit team identified a weakness in the conflict of interest reporting mechanism. The current policy requires employees to declare any potential conflicts of interest, but it does not specify the process for reviewing and approving these declarations. This could lead to inconsistent handling of conflicts of interest and potential non-compliance with regulatory requirements.</p> <p>The audit team recommended that the company should develop a clear and consistent process for reviewing and approving conflict of interest declarations. This process should be documented and communicated to all employees. The process should include a review by a designated authority, such as the Human Resources Department or the Compliance Department, and a record of the review and approval.</p> | <p>The company has agreed to implement the audit team's recommendation. A new policy has been developed and approved by the Board of Directors. The policy specifies the process for reviewing and approving conflict of interest declarations, including the roles and responsibilities of the relevant departments. The policy has been communicated to all employees and a training session has been conducted to ensure that all employees understand the requirements.</p> <p>The audit team has concluded that the company's internal control system is effective, except for the identified weakness in the conflict of interest reporting mechanism. The company's management has taken appropriate action to address the weakness and the audit team has no further comments.</p> |

| Key Internal Control Issues | Rectifications |
|---|--|
| Entity-Level Review by COSO Framework | |
| <p>Control Environment – Succession Plan</p> <p>The Board of Directors has approved a succession plan for the CEO and the Chairman of the Board. The plan includes a process for identifying and developing potential successors, as well as a process for transitioning the company to a new leader. The plan also includes a process for ensuring the continuity of the company's operations during the transition period.</p> | |
| <p>Risk Assessments – Anti-Money Laundering Mechanism</p> <p>The company has implemented a risk assessment process for identifying and assessing the risk of money laundering. The process includes a review of the company's operations and a review of the company's relationships with customers and suppliers. The company has also implemented a monitoring system to detect and prevent money laundering transactions.</p> | <p>Anti-Money Laundering Mechanism</p> |
